

## CV

Stefano/Stevo Kuzhikov, 59 years old. Works and lives in Helsingborg, Sweden. I have begun to take an interest and work for roma rights 33 years ago. As an activist I have been active in several organizations, local, national and international. I am today president of the National Federation of Roma in Europe, which is a major national organization for Roma in Sweden, I have been active in the IRU for 25 years, have had various assignments and positions.

I have been elected at the 2016 Congress as vice president of the Roma Parliament of the IRU. My interests are to work for roma rights, to combat all forms of racism, discrimination and anti-Gypsyism, which is unfortunately the biggest obstacle to Roma integration into society. I have worked since 20 years in the city of Helsingborg as a coordinator, bridge builder and since 2012 as process leader for the Government's strategy for Roma inclusion in Helsingborg.
